

## Army List Changes

Below are a number of updates to the Army Lists. These include those previously identified in the v1.10 Errata other than errata relating to Starter Armies.

Please note that **all** the points values in the tables below are the **Updated Points Values** as detailed in this document under **Troop Points Costs**, whether they relate to a change or not, and **not** those in the printed rule book. (NB if points in any of the tables below differ from those in the updated points cost table, the latter always takes precedence)

Changes are indicated in **Red** text in the tables.

## All Army Lists – Artillery:Foot Ratio

For each Battle Group (BG) of Medium or Heavy Artillery, an army **must** contain:

- 12 stands of Foot Battle Troops (other than artillery), if the artillery BG is 2-3 stands
- 18 stands of Foot Battle Troops (other than artillery), if the artillery BG is 4 stands

Example:

An army that wishes to take 2 BGs of 3 Medium artillery must have 24 stands of Foot Battle Troops (12 + 12).

An army that wishes to take 2 BGs of 2 Medium artillery plus 1 BG of 2 Heavy artillery must have 36 stands of Foot Battle Troops (12 + 12 + 12).

An army that wishes to take 1 BG of 4 Medium artillery plus 1 BG of 2 Heavy artillery must have 30 stands of Foot Battle Troops (18 + 12).

Any mounted troops that can only be taken as **Superior** (at the chosen date of the army being fielded) can instead be taken as **Average** at the appropriate points cost on an any/all basis.

## Dragoon Minima

Any list that includes a minimum number of Dragoons that must be fielded has this minimum removed, but the maximum remains the same. E.g. 3-8 becomes 0-8.

## Duty and Glory – Mounted Battle Troops Minima

The minimum of mounted Battle Troops in the Core Troops section of the army list that must be fielded (if they don't already meet this) rises to 8 bases with the following exceptions:

- Later Spanish
- Covenanting Rebels
- Monmouth Rebellion
- Scots Jacobite

The Later Danish may include the Horse Guards from Optional Troops in the 8 minimum.

Where a list has a \*ed minima for the mounted battle Troops where if it is taken the minimum is lower (for example Later Louis XIV French - \*ed option for the Army in Spain) this over-rides the requirement for 8 bases above.

Allow 1 BG per 3 of Average **Mounted** Battle Troops fielded from the Core Troops section to be upgraded to **Superior** if there are currently **none** in Core Troops section at the date chosen for the army.

## Cavalry Reclassified as Horse

These are included in the changes detailed above, but are also noted here for clarity.
